***PROCEEDS GO DIRECTLY TO THE
EMILY SANTANA FAMILY***

August 2010

Dear Friends,

Over the past 14 years, Let It Grow has raised countless dollars to help needy families and impact their lives as they journey through life's difficult challenges. We support local families with life threatening illness and our contributions go directly to the families they benefit. We participate in and sponsor local and regional charity events, youth athletics, and various non-profit donations of time and services. We also contribute to the environment sponsoring trees, landscape projects, and maintenance services that benefit the communities we serve and work in.

Due to family health obligations, Let It Grow's September 11, 2010 Tribute to Jerry Garcia Benefit Party has been cancelled. Despite the cancelled event, our efforts to raise funds continue.

This year, we are encouraging active participation with our employees, business associates, and vendor relationships to generate donations around our annual company picnic and help Emily Santana. Emily is battling 2 brain tumors since she was 6 months old causing multiple issues such as epilepsy and partial paralysis on one side of her body. Emily's father Tito Santana is also a recent part-time employee of Let It Grow & Clothesline, located at 55 Kinderkamack Road in River Edge, New Jersey. In addition to Emily, we will also raise funds to benefit the Christ the King Preparatory School Scholarship Fund in Newark.

We realize that donation dollars have been squeezed in our current economy but assure you that our donations go directly to families that truly need financial assistance. Please see the attached page to make donations of any size value. Your generosity and thoughtfulness to Emily is of heartfelt gratitude.

Please contact Donna O'Reilly at 201-489-9499 or doreilly@letitgrow.com with any questions or for additional updates.

Gratefully yours,

Paul T. Imbarrato
